Center for Community and Economic Development

The MSU EDA University Center for  
Regional Economic Innovation presents our  
**2014 WEBINAR SERIES**

Steven Mankouche is a registered architect and an Associate Professor of Architecture at Taubman College. He teaches architectural fabrication, construction as well as graduate and undergraduate design studios.

Rather than demolishing another irreparable house in Detroit, a motivated group has been actively working to deconstruct and reuse the foundation to build a semi subterranean passive geothermal greenhouse. This greenhouse will be able to dramatically extend the growing season and expand crop possibilities without using additional energy and help supply Detroit with fresh, local, affordable produce.

# Afterhouse

**Steven Mankouche, Ph.D.**

**Thursday, May 8, 2014**

**2:00 – 3:00PM**
